- Clubs for all ages

STREAM

Science | Technology | Religion | Engineering | Arts | Math

STREAM education, a comprehensive approach that incorporates Science, Technology, Religion, Engineering, Arts, and Math, seeks to educate the whole student while also reflecting the values of the Catholic faith. In this holistic framework, students gain a deep understanding of the world's complexities, not only through scientific and mathematical principles but also by exploring the spiritual and ethical dimensions of life guided by the Catholic faith. Science and technology lay the groundwork for understanding the natural world, while engineering fosters the skills needed to design practical solutions. Art encourages creativity and expression, mathematics sharpens logical reasoning, and the inclusion of religion provides a moral and ethical compass rooted in Catholic teachings. STREAM education equips students with a well-rounded perspective, nurturing not only their intellectual growth but also their spiritual and moral development, preparing them to become responsible, compassionate, and informed leaders who can make meaningful contributions to both their communities and the world.

Pre-Kindergarten 3 Year Old and 4 Year Old Program

St. Pius X School's Early Years Program, with half and full day offerings for Pre-K 3 and Pre-K 4, is where we lay the foundation for a lifelong love of learning while instilling strong Catholic values. Our approach to education for our youngest learners is centered around fostering their natural curiosity and creativity through hands-on exploration, imaginative play, and a nurturing environment. We believe that children learn best when they are actively engaged, and our dedicated teachers facilitate this by providing opportunities for discovery and experimentation. Through a carefully crafted curriculum, children not only develop their cognitive skills but also begin to understand and embrace essential values rooted in the Catholic faith, such as kindness, compassion, and respect. St. Pius X School's Early Years Program strives to create a safe and stimulating space where our little ones can flourish, setting them on a path towards a lifetime of educational success while growing as compassionate and faithful individuals.

Elementary School Kindergarten through 4th Grade

St. Pius X School's Elementary Program is committed to providing a holistic education that nurtures the complete development of each student, guided by strong Catholic values. At the heart of our educational approach is the integration of STREAM – Science, Technology, Religion, Engineering, Arts, and Math – as a central focus. Our dedicated faculty and staff strive to create a learning environment where students not only excel academically but also grow spiritually and ethically. Through hands-on activities, innovative projects, and a curriculum that seamlessly weaves together these diverse disciplines, our students are equipped with the skills and knowledge needed to thrive in an ever-evolving world. St. Pius X School's elementary program is dedicated to shaping well-rounded individuals who are not only academically proficient but also compassionate, creative, and deeply rooted in their faith.

The elementary-school years are crucial for forming good academic habits, gradually increasing the complexity and scope of projects, learning to work independently as well as cooperatively, and developing a strong base of beliefs, morals, and ethics, founded on the Gospel message.

Middle School Program Grades 5th through 8th

St. Pius X School's Middle School Program, spanning grades 5th through 8th, is a testament to our commitment to educating the whole student while upholding strong Catholic values. At the core of our educational philosophy is the incorporation of STREAM as a central and dynamic focus. In addition to our rigorous core subjects, we offer an impressive array of over 35 elective courses, ensuring that students have the opportunity to explore their passions and interests. These diverse elective offerings empower our students to delve into subjects such as Design and Architecture, Fine Arts (musical and visual), Environmental Conservation, Fitness, and more, encouraging them to discover their unique talents and broaden their horizons. St. Pius X School's middle school program is dedicated to nurturing well-rounded individuals who are not only academically prepared for the challenges ahead but also equipped with a strong moral compass, ready to make a positive impact in our ever-changing world.
